

**3DEP Executive Forum Meeting**  
At Federal Emergency Management Agency  
400 C Street SW, Washington, D.C. 20024  
**November 30, 2017 1:00 – 3:00 PM**

**Background** – The 3D Elevation Program - 3DEP - is a national program managed by the U.S. Geological Survey (USGS) on behalf of the partner community, to acquire high-resolution 3D elevation data. The goal of the cooperatively funded program is to complete in 8 years national coverage of lidar for the conterminous United States, Hawaii, and the U.S. territories; and IfSAR for Alaska. These data serve government, public and private sector needs for a wide range of activities that include flood hazard mapping, precision agriculture, infrastructure planning and development, natural resource management, environmental assessment and a host of other applications.

**Purpose of the 3DEP Executive Forum** – To facilitate executive dialog and collaboration on strategies to implement and sustain 3DEP for the benefit of its Federal stakeholders and the broader community.

**Membership** – Executive-level (Associate Director equivalent) representatives of 3DEP Working Group member and other agencies with significant potential benefits from a national 3D elevation program.

**Website** – Materials are posted online: <http://nationalmap.gov/3DEP/xforum.html>
